

Your Direct Pathway to a World-Ranked New Zealand Degree

UC International College (UCIC) provides direct and exclusive pathway programmes for international students to the University of Canterbury (UC). Upon successful completion of their UCIC programme, students progress directly into the first or second year of their UC degree.

At UCIC, our purpose is to prepare students for academic success while equipping them with the confidence to achieve their full potential. UCIC places a strong emphasis on students' growth as they transition to

university life in Christchurch, New Zealand, helping them build the confidence and independence needed to succeed both academically and personally.

As a full-time UCIC student, you are eligible for New Zealand student visa work rights, allowing you to work part-time during the academic year and full-time during scheduled breaks. This provides valuable opportunities to gain work experience, enhance employability, and help cover living expenses while studying.

WHY CHOOSE UCIC?

Be a UC student
from Day 1

Fast track into your
dream degree at the
University of Canterbury

of excellence with a
98% progression rate
into higher study

Gain NZ Work rights
during and after study

Our pathway options to UC

Certificate in Foundation Studies

The Foundation Studies Programme replaces the final year of high school, providing a focused pathway into any UC's bachelor's degree. Upon completion, students have direct progression into a UCIC Diploma in University Studies, or into the first year of a UC degree.

Diploma in University Studies

This programme is equivalent to International Year 1. Upon completion of UCIC's Diploma in University studies, you will transfer on to the second year of your intended bachelors degree in Commerce, Data Science, Engineering or Science.

Certificate in Postgraduate Preparation

Upon completion, you will be guaranteed entry to a range of master's degrees across Business, Engineering, Science, Health, Education, and Arts disciplines.

Diploma in Postgraduate Preparation

Upon completion, with a minimum GPA requirement, you will be guaranteed entry to a range of master's degrees across Business, Engineering, Science, Health, Education, and Arts disciplines.

International student entry varies by country and/or region. See your countries specific requirements: www.ucic.ac.nz/admissions/entry-requirements/academic ** This fee is indicative only and does not include additional costs such as course materials, insurance, and levies. Prices include GST where applicable. *** Please check that the end date of your pre master's programme aligns with the start date of your preferred master's degree. Most master's degrees have a February and/or July start date.

"What I enjoyed the most about UCIC are the teachers and staff. They always motivate and support students to have good experiences. I used to be very shy, but since I came here, everyone has been so friendly, and they won't judge you for asking any questions. UCIC has a lot of activities where students can participate and become more open to the new environment. I'm proud of being chosen to become the Engagement Executive in the UCIC Student Council. Together with the UCIC staff, I developed activities for students at UCIC. It has been so fun when it comes to organising events like these for students. Plus, the mix of cultures and the opportunity to learn about Māori traditions adds a unique experience. Overall, I see New Zealand as not just a place to study, but a chance to experience something different from what I would expect."
